Web3.js

Ethers.js

PROFILE

Full-stack software engineer with **7+ years** of experience delivering **web, mobile, blockchain, AI/ML, and e-commerce solutions** across industries. Skilled in **React.js, React Native, Flutter, Swift/SwiftUI, Kotlin/Java, PHP/Laravel, Ruby on Rails, Shopify, and WordPress**, with a strong record of building scalable, performant, and user-focused applications. Proficient in API integration (REST, GraphQL), cloud deployments (AWS, DigitalOcean, Azure), and modern development best practices.

EMPLOYMENT HISTORY

Full-Stack Engineer at Wonderwave AS, Norway

November 2019 — Present

- Led the development of diverse web and mobile applications, delivering high-quality, scalable solutions.
- Developed cross-platform mobile apps using React Native, Flutter, Swift/SwiftUI, and Kotlin/Java.
- Implemented RESTful and GraphQL APIs, optimized performance, and integrated third-party services.
- Worked on e-commerce platforms with Shopify and WordPress, customizing themes and developing plugins.
- Collaborated with designers and backend teams to create user-friendly, responsive interfaces.

Software Engineer at TrendLine Global, Kyiv, Ukraine

October 2022 — December 2024

- Developed and maintained responsive web and mobile applications using React.js and React Native.
- Built reusable components and scalable architecture with hooks, Context API, and Zustand.
- Integrated RESTful APIs and GraphQL endpoints for smooth, performant data handling.
- Implemented CI/CD pipelines for mobile and web releases.

Software Engineer -> Senior Software Engineer at Select Minds LLC, Boston, Virginia, United States

June 2021 — September 2022

- Led front-end development with React and TypeScript, building modern, responsive interfaces for web platforms.
- Designed and integrated REST and GraphQL APIs to support dynamic, real-time features.
- Developed mobile-first experiences using React Native, including native module integration and performance tuning.

LANGUAGES

Ukrainian

Russian

English

- Focused on data visualization, efficient API consumption, and real-time updates using WebSockets.
- Deployed and maintained cloud-based services using AWS (EC2, S3, Amplify).

Mobile Developer at CyberCraft, Lviv, Ukraine
March 2019 — May 2021

- Developed cross-platform mobile apps using React Native, improving app performance and reducing time-to-market.
- Implemented smooth navigation and reusable components with React Navigation.
- Optimized performance and stability through testing and profiling.

EDUCATION

Bachelor's Degree in Computer Science at Ivan Franko National University of Lviv, Lviv, Ukraine
June 2017 — January 2021

Relevant Courses: Modern Programming Practices, Big Data, Software Engineering, Advanced Software Development, Algorithms, Enterprise Architecture, Web Application Architecture, Web Application Programming, Parallel Programming, Database Management System

Project Highlights

- **ABC Matteservice** — Developed a professional cleaning service website with a custom booking system and optimized performance for SEO.
- **GotoConsult (Staging)** — Built a telehealth platform supporting real-time consultations and secure data handling.
- **Optimal Strength Gains** — Created a fitness-focused website with an interactive content library and subscription-based access.
- **EasyFreelance** — Developed a freelance marketplace platform with secure payment integration and messaging system.
- **BootyBuilder** — Delivered a high-performance e-commerce site integrated with marketing tools; also developed the **BootyBuilder Mobile App** to guide workouts with custom exercise tracking and media content.
